G.P. Grant began its history by production of the exclusive artworks for the interior made of from very rare and elite gemstones, precious stones, minerals and crystals, fine and exotic wood, noble metals. At the same time, the company worked as a design studio creating original industrial design, design of home furnishings and interiors, graphic design. The company performed extremely complicated and exclusive orders of hewing elite stone types, giving unique beauty to each product. Artworks, created with incredible imagination and soul are comparable to works of art.

We've made a lot of exclusive private cigar rooms. Our advantage and uniqueness is that we offer a turned key solution, cigar room created in a one unique design and style finished interior, furniture and cigar accessories.

The company's long-time experience in creating private cigar-rooms interiors and cigar accessories has led us to the concept of the commercial G.P. Grant Cigar Room & Store.

## CIGARS

Zaven by G.P. Grant Cigars are unique high quality long filler totally handmade premium cigars. There are a number of factors that make Zaven by G.P. Grant Cigars stand out:

- Premium Totally Handmade Long Filler Cigars
- Henke Kelner master blender
- 3rd generation cigar rollers (4 of them previously Davidoff fabrica)
- 4-7 years aged high quality tobacco (Kelner family, Reyes family)
- In addition also using Nicaraguan, Ecuadorian and other high quality tobaccos
- Strongly limited editions

With their unique proportion and special techniques for growing, curing, and rolling of their exquisite premium tobacco, the Zaven by G.P. Grant Cigars production and final product is a work of art.

From the constant care of tobacco plants and the fields, to picking the tobacco leaves at the perfect time - when it has fully reached maturity - every step of the process will affect the final product.

At G.P. Grant our expectations of the quality of a cigar is only exceeded by that of our customers. While the Zaven by G.P. Grant cigars have a traditional beginning, our quality control process is a crucial part of production, and we ensure consistency, reliability, and the high quality premium cigar that has become synonymous to the Zaven brand.

## PRODUCTION

The quality of the tobacco used is important, but sourcing the best quality tobacco is not the only thing we focus on. The cigar-making process is a key factor in achieving the highest quality of a specific cigar. If it is under-filled, it will draw easily but burn too quickly, and feel hot and harsh, if it is over-filled it will be difficult to draw on. Finding the perfect combination, and achieving it time after time is what makes a brand stand out from the rest. That's why our mantra at Zaven by G.P. Grant Cigars is **"QUALITY OVER QUANTITY"** and we do not believe in mass producing cigars. Therefore, our production is **STRONGLY LIMITED EDITION.**

Production and quality control is done in cooperation with the Davitian Cigars. Our production process is totally handmade.

## TOBACCO

Our fine totally handmade cigars are made with three of tobacco leaves, whose variations determine smoking and flavor characteristics: capa (wrapper) /capote (binder) / fortaleza (filler)

Each component of our cigars is selected carefully to ensure maximum aroma, taste and oil in our tobacco.

We use only 4-7 years aged high quality long filler tobacco mostly from the plantations of Kelner family and Reyes family. In addition also using Nicaraguan, Ecuadorian and other high quality tobaccos.

## MASTERS

While the art of cigar-making begins in the fields, the magic truly happens during the expert touch of a seasoned and expert Master Roller.

Zaven by G.P.Grant Cigars employes Third and Fourth generation blend masters and rollers who hand press and carefully fold the tobacco leaves that become the fine quality of a totally handmade Zaven by G.P.Grant Cigar.

Our highly trained professionals come from families with generations of rollers, who bring their family history, expertise and trade secrets, an expertise rarely found outside of the region. Our handmade masters have held a lifelong career working with many of the top cigar fabricas.

After the gentle touch of one of G.P.Grant Master cigar rollers, the next touch on the exquisite final product is that of the customer.

## PROCESSING AND BLENDING

While processing methods vary from factory to factory, care and professionalism are the slogan for processing of Zaven by G.P.Grant cigars. Professional fermentation is the priority in the processing stage for making our exceptional product.

Curing and subsequent aging of our tobacco are all done using natural processing which allows the production of various complex compounds in the tobacco leaves which the Zaven by G.P.Grant Cigars are known for.

There are no artificial 'flavors' added to our high-quality tobacco and the total aging process could extend to months for certain cigars. We age tobacco for 4-7 years. All our cigars are developed and blended in collaboration with the legendary master blender Hendrik "Henke" Kelner, who has been responsible for the quality and flavour of the Avo Uvezian and Davidoff cigars for over 30 years.

## ROLLING

This is where the magic truly happens. In keeping with our Quality over Quantity mantra, our rollers are instructed on the daily quantity of cigars to be made each day.

Adhering to the unique blends and proportion the Zaven by G.P.Grant Cigars are known for, the cigars are then rolled using perfectly designed forms/molds which allow for a consistent smoking experience.

We use the best traditional classic tools for rolling and only all-natural accessories for rolling Zaven by G.P.Grant Cigars.
