### NATURAL STONE FACTORY, SWITZERLAND - BUCHS

Primarily the raw material is bought- stone slabs or pieces of stone. This is a very important aspect as the stones of the same species are of different quality. Most of the stone cannot be used for the production of such a high level products. We use only high-quality pieces that remain after the treatment and a pass through uncompromising selection.

### STONE LINE MANUFACTORY, ARMENIA - YEREVAN

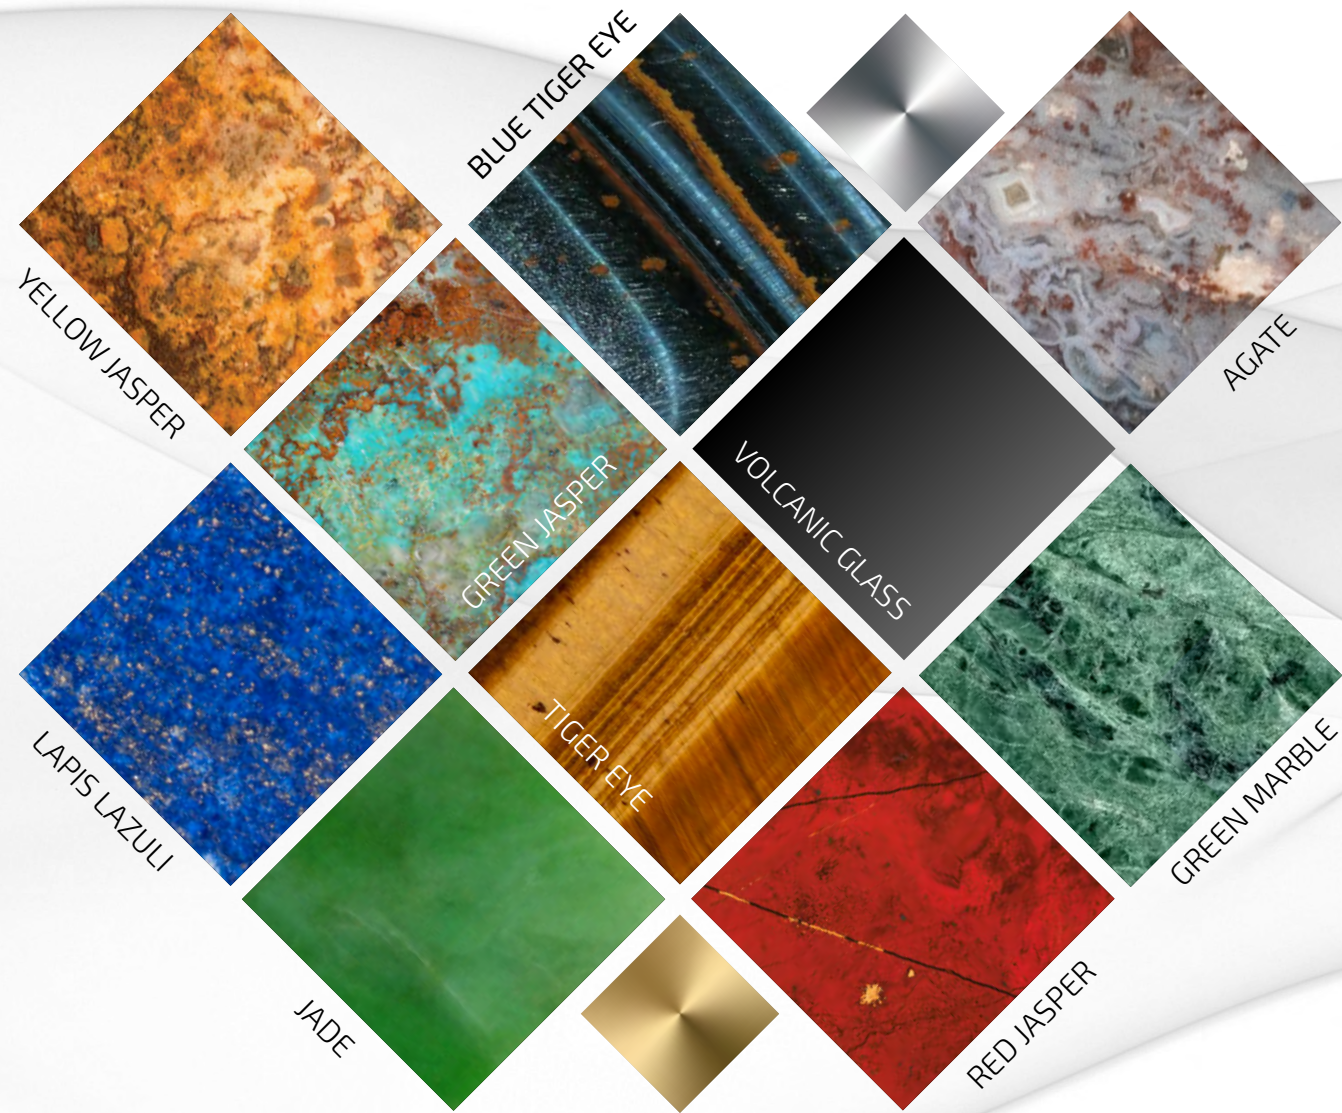

Final assembling of stone products is made in Armenia, which is famous for its thousand-year tradition of stonecutting. Armenia is ancient and mountainous country. Since the days of BC artisans and craftsmen have been engaged in the creation of sculptures, ornaments and other artworks made of stone. For centuries, generations of artists have developed and passed on their knowledge and culture of working with stone.

All the products including their numerous ornamental details are hand crafted by our artisans. Filigree processing of every item and its details, assembly and final fitting can take not only many hours but up to several days.

Here we also cast bronze and silver.

We have the best craftsmen of stone and we maintain these traditions.

# STONE LINE

Gemstones, elite stones, minerals, and crystals are not often seen in our lives. In nature they are not ordinarily seen on the surface. Beautiful and multicolor, they are hidden under ancient rocks. For many centuries, having been underground, they have acquired unusually complex, interesting structure and hardness. It became reinforced, stronger, and its spiritual strength makes it unusual. We offer you rare stones - the epitome of beauty and strength from the heart of nature. Green, blue, purple, all these colours and shades make people amazed by the imagination of nature. The play of light of this skillfully processed stone gives the impression of unprecedented warmth and internal energy heating from the inside. Such stone creates comfort in any, even in the most official, environment. One wants to touch and feel its smooth, cool surface, pass fingers on the patterns that have been created by nature over the years. High quality exotic wood is very rare and possesses incredibly beautiful natural shades and patterns.

## ALL THE STONE LINE PRODUCTS ARE HANDMADE AND LIMITED EDITION

# STONE LINE

Real art lovers and people seeking for beauty do not necessarily need to look for antiques. Zaven by G.P. Grant creates beautiful, unique and intricate stone line items and accessories from natural stone and introduces you to an extraordinary handwork: accessories from rare types of gemstones, marble and minerals. The uniqueness of stone line from Zaven by G.P. Grant is its combination of many pieces (from 100 to 1000!) of stone, crystal and precious metals. The triple combination of these noble but entirely different elements give the products an incredible design. These products will not leave you indifferent.

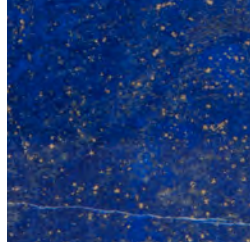

What can be better than art pieces made of natural stone? What can be more interesting than nature's drawing itself? We offer an introduction to past and present, with many centuries' history of stone and modern design solutions. All the products including their numerous ornamental details are hand crafted. Filigree processing of every item and its detail, assembly and final fitting can take not only many hours but up to several days. By seeing one of the described products once, it becomes clear why each item is numbered and limited in edition.

Stone is a unique material. Stone accessories give the atmosphere of strength, stability and prosperity. Truly beautiful accessories may tell a lot about the owner – his taste, habit for comfort and atmosphere. ≠

## SPECIAL EDITION

There are many beautiful stones in nature. We do not limit ourselves to using them in our products, especially in UNIQUE EDITION. Here are descriptions of some of the stones that we use in our regular collections.

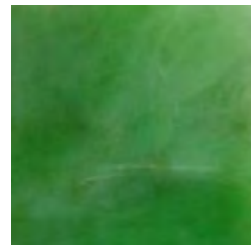

**ROYAL BLUE LAPIS LAZULI**  
ORIGIN: AFGHANISTAN

Royal blue Lapis Lazuli, the gem variety of lazurite and one of the most beautiful opaque gemstones, is a sodium and aluminum mineral of considerable complexity. Known as "sapphires" by the ancients, the stone occurs in only a few major deposits around the world. The most prized lapis is a dark, nearly blackish blue, much deeper than turquoise and more intense than sodalite or azurite. Pyrite, a commonly associated mineral, is often liberally sprinkled throughout lapis specimens, to create a striking combination of rich blue and brassy gold.

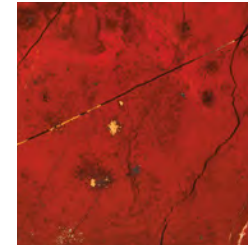

**MALACHITE**  
ORIGIN: RUSSIA, URAL MOUNTAINS

Malachite has been used as a gemstone for thousands of years and is still popular today. Today it is most often use for jewellery.

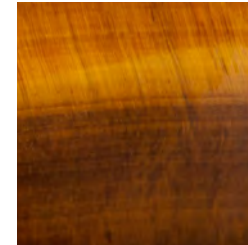

**JADE: JADEITE AND NEPHRITE**  
ORIGIN: MYANMAR, CHINA

Jade is a unique symbolic gemstone. Yet as early as 3000 B.C. Jade was known in China as 'yu', the 'royal gem'. Jadeite and nephrite are the only pure forms of Jade. Myanmar (Burma) - is the only source of Imperial Jadeite.

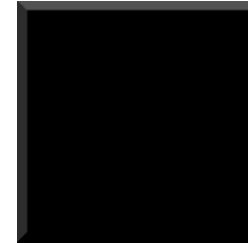

**RED JASPER**  
ORIGIN: RUSSIA, URAL MOUNTAINS

The unique artistry of Jasper is that of Nature itself - red rock canyons. Each stone is a masterpiece of the Creator. Red Jasper is red to terracotta brown, stone of physical strength and energy.

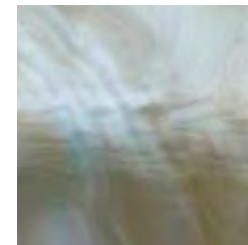

**TIGER EYE. ORIGIN**  
SOUTH AFRICA, INDIA

Tiger's Eye is a stone of protection that is also very stabilizing and grounding. All Tiger Eye stones represent strength and grounding energy in different degrees, depending on the color—golden yellow, deep red, and anything in-between. Tiger Eye stones are also believed to have mystical qualities. Different combinations of colors and dark stripes make the stones even more special.

**VOLCANIC GLASS / OBSIDIAN**  
ORIGIN: ARMENIA

Obsidian is naturally occurring volcanic glass. It is formed when felsic lava extruded from a volcano cools without crystal growth. Obsidian has been known since prehistoric times.

**MOTHER OF PEARL**  
ORIGIN: JAPAN, PERSIAN GULF

Mother of Pearl is the nacreous inner shell coating of pearl-producing mollusks. These creatures have three layers to their shell; the outermost periostracum, followed by a layer of calcite and then the innermost layer of nacre (mother-of-pearl). This smooth part of the shell is produced by the mantle of the mollusk as it grows. Mother of Pearl has been used for thousands of years; it was used by the ancient Egyptians and Sumerians. One of the best Mother of Pearl comes from Japan and Persian Gulf.

# STONE ASHTRAYS

REMOVABLE BEDDING IS DESIGNED FOR ITS INSTALLATION IN ANY CONVENIENT PLACE FOR A SMOKER (BILLIARD TABLE, COFFEE TABLE, ETC.)

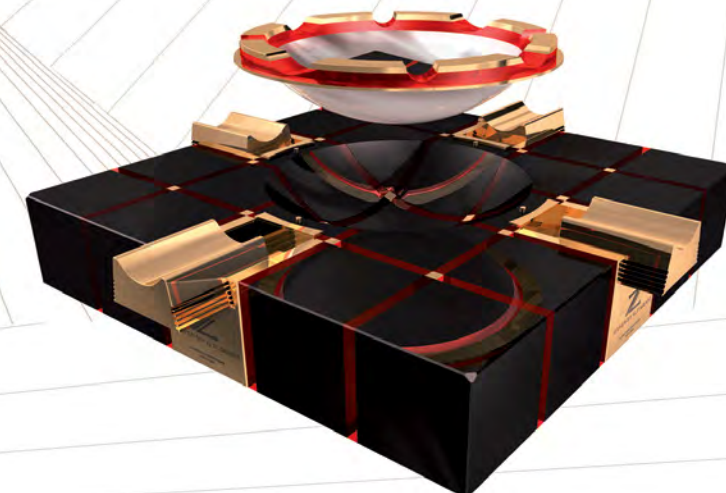

Imagine there is a handmade ashtray with rare gemstones from faraway countries of the world on the desk in your office. This is an example of good taste, reason for fun and esthetic satisfaction.

Exclusive ashtrays are made of elite stones, color crystals and metal elements. All ashtray elements are handmade, the metal parts are made by skillful miller-gunsmith. Every element is milled, polished perfectly matching with the other one. And as a result we get cubes of precious stone with crystals in between, wedges made of precious metals, and intricate removable bedding for cigars, each consisting of two separate parts, held together with 4 powerful magnetic tablets.

Removable bedding is designed for its installation in any convenient place for a smoker (billiard table, coffee table, etc.). Add to this a stone bowl with a removable rim for emptying ashes. The cup is not fixed for easy emptying and cleaning the ashes. Ashtrays are handmade with 100-600 individually processed elements. Every product is numbered and unique by its type.

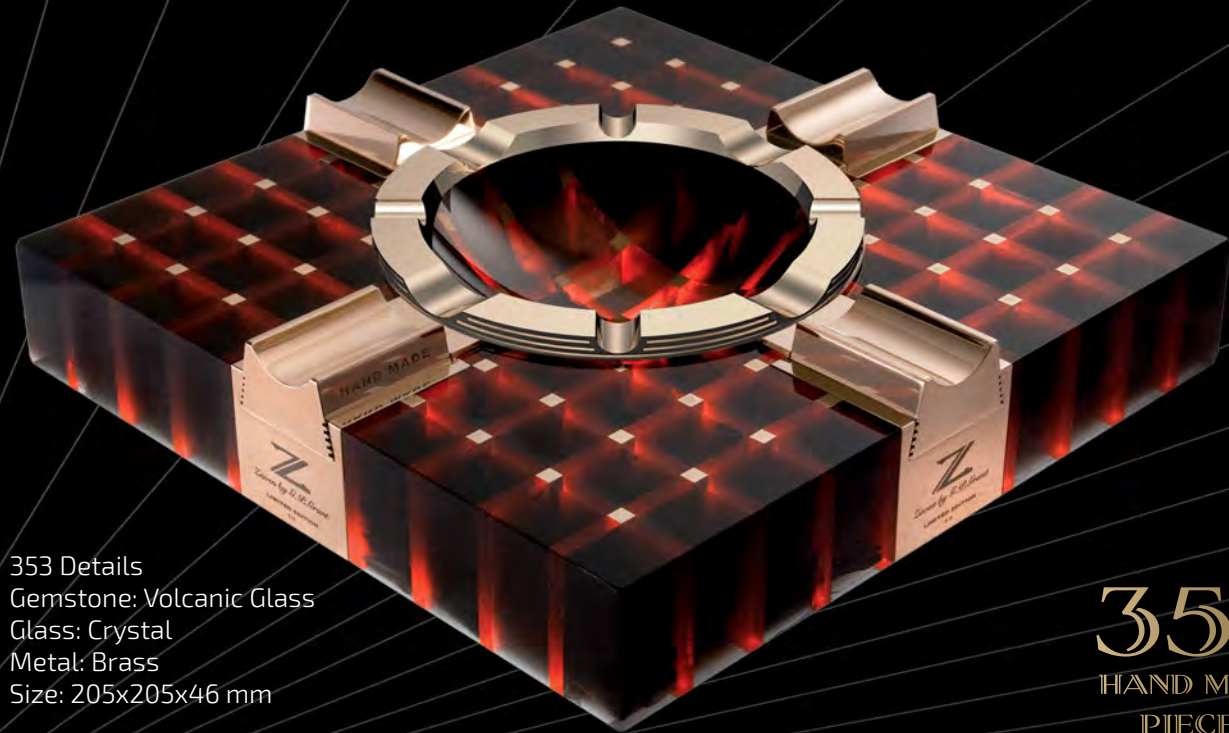

This is a shot description of one of the products of stone line from G.P. Grant.

All ashtrays are available in Special Edition with different gemstones and noble metals as well as in Personal Edition by order.
