WOOD LINE

WOOD LINE MANUFACTORY. FRANCE / ITALY
JEWELLERY PARTS. GERMANY

All G.P.Grant wood line products are entirely handmade from the highest quality materials in France and Italy

WOOD LINE

G.P.GRANT SWITZERLAND

ELIE BLEU PARIS

G.P.Grant specializes in creation of works of art, the exclusivity of which is achieved through the original design and the use of unique materials: gemstones, crystal and minerals, fine and exotic wood, noble and precious metals and genuine leather. We create a completely new design and give a new breath to such conservative items as jewelry boxes, humidors, and also wooden ashtrays and lighters.

HIGH-END HUMIDORS, ASHTRAYS, LIGHTERS

High quality high-end humidors G.P.Grant are luxury items for cigar storage, the production of which requires a huge work. The process begins with a thorough processing of specially prepared wood (mostly Spanish cedar), which is done by true professionals. Wood is aged for at least ten years in special outdoor areas, which completely eliminates the possibility of its deforming or cracking in service. Further, the processing work such as sawing, milling, jointing, sanding, gluing, drying, polishing, coating, finishing is completed over half a year. The quality of humidors also depends on the quality of the veneer pattern. Skillful selection of textures, shapes, and colors allows you to create unique ornaments and compositions of extremely beautiful products. The surface of each humidor is covered with high-quality lacquer in several layers. Best materials are used for handmade décor.

One of the main principles of production technology of high-end humidors G.P.Grant - is manual craftsmanship, guaranteeing excellent quality of finished products.

All humidors are entirely handmade from the highest quality materials. With the purpose of ensuring unparalleled quality in the creation of many collections, the G.P.Grant closely cooperates with Elie Bleu (France), the absolute world leader and expert in the production of top level handmade humidors. This guarantees 100% safety of cigars for an unlimited time. We combine our design and know-how to the production capacity and quality assurance of Elie Bleu. These collections are highlighted by double logo G.P.Grant and Elie Bleu.

At the same time G.P.Grant uses its know-how in the field of processing of stones and minerals and creates its own unique and elaborately produced humidors. The unique design combined with the rarest materials and skillful techniques will satisfy any connoisseur and expert! Each humidor has not only a unique design, but also unique materials not typical to traditional humidors such as inlays of minerals and precious stones, wood and metal patterns and use of special lacquer coating. All these components of the quality of the company's products make it entirely unique not having analogues. Handmade production of G.P.Grant humidors is so complicated and filigree that all products are produced in strongly limited editions, sometimes with just five or ten items. That is why every product under G.P.Grant brand can be considered not just as a humidor for cigars, excellently performing its functions of their storage, but as an exclusive luxury and unique art object. Due to superior quality and unique design all G.P.Grant high-end humidors are truly works of art that will serve forever and bring tremendous aesthetic pleasure to their owners.

Bases of all G.P.Grant's luxury products are the most sophisticated technology and know-how, the most elite materials and exquisite design. All products are perfect examples of European quality, elegant style and respectability. Luxurious design as art objects is the basis of the philosophy and the success of the company.

Humidors complement stylish lighters and massive ashtrays made of wood inlaid with metals and gemstones to corresponding theme design of each collection.

- It is possible to order items from the Exclusive Edition based on the wishes of the client using different gemstones and precious stones, precious metals. With the personalization
- Personal Edition Available for all Exclusive Edition models.
- Custom made humidors

WOOD LINE

HIGH-END HUMIDOR'S INSIDE WOOD

Almost all G.P.Grant's humidors are made of Cigar Box Spanish Cedar.
Some humidors based on design made of Mahogany.

CIGAR BOX SPANISH CEDAR
ORIGIN: CENTRAL AND SOUTH AMERICA

Spanish cedar (Cedrela odorata) is a tropical hardwood found throughout Central and South America. It is one the world's most important timber species. Esteemed for its aromatic and attractive pink to salmon-red wood, which is resistant to rotting and insects. Has a distinct, lingering, cedar-like scent; this characteristic of the wood makes it a favorite for cigar boxes.

Spanish Cedar or Cedrela is generally straight grain, with a medium to high luster. It machines and finishes easily. Color is deep reddish brown. Density and gum content varies among the half dozen or so species marketed as Spanish cedar. Texture somewhat coarser and more ring-porous than mahogany, to which it is related. Light in weight and moderately soft. Strong "cedary" odor makes it a favorite liner for humidors. Heartwood is reported to be extremely resistant to preservation treatments.

HONDURAS MAHOGANY (SWIETENIA MACROPHYLLA)
ORIGIN: CENTRAL AND SOUTH AMERICA

Heartwood color can vary a fair amount with Honduras Mahogany, from a pale pinkish brown, to a darker reddish brown. Color tends to darken with age. Mahogany also exhibits an optical phenomenon known as chatoyancy.

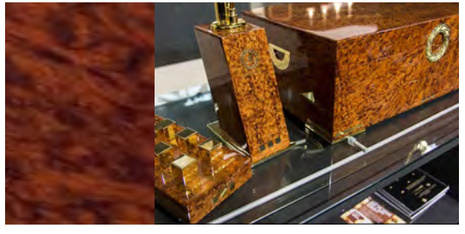

There are many beautiful woods in nature. We do not limit ourselves to using them in our products, especially in UNIQUE EDITION. Here are descriptions of some of the woods that we use in our regular collections.

MACASSAR EBONY (DIOSPYROS CELEBICA)

ORIGIN: INDONESIA/CELEBES ISLANDS

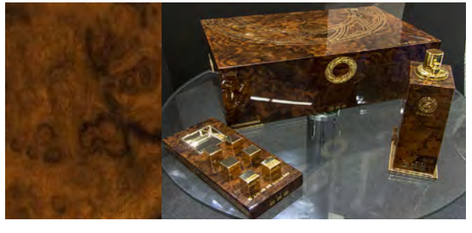

Heartwood has dramatic striped appearance, somewhat similar to Zebrawood. Yellow to reddish brown body with darker brown or black stripes. Tends to be rather difficult to work, due to its high density, blunting effect on cutters, and its occasionally interlocked grain. It is extremely expensive. The tree grows slowly, has a very limited natural habitat, and is highly desired for the wood's aesthetic appeal and toughness.

BUBINGA (GUIBOURTIA DEMEUSSI)

ORIGIN: EQUATORIAL AFRICA

Heartwood ranges from a pinkish red to a darker reddish brown with darker purple or black streaks. Sapwood is a pale straw color and is clearly demarcated from the heartwood. Bubinga is very frequently seen with a variety of figure, including: pommele, flamed, waterfall, quilted, mottled, etc. A quality cabinet and turnery timber. Bubinga may be loved for its strength and beauty.

WALNUT BURL

ORIGIN: NORTH AMERICA

Walnut burl is a classic beauty. The rich brown color is frequently accented with a light coat of penetrating stain which brings out the figure. Walnut is one of only a handful of species that lightens with exposure to UV light. Vintage walnut furniture pieces are usually very warm in color. This lightening process can take months, years, and even decades to achieve.

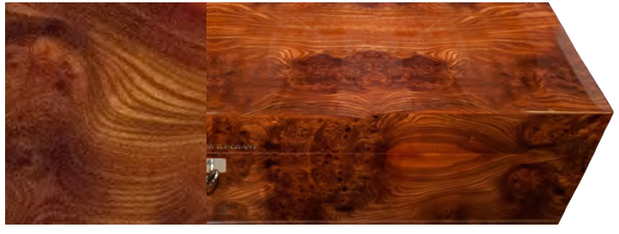

DECORS OF WOOD BOXES, HUMIDORS, WOOD LIGHTERS AND ASHTRAYS

SANTOS ROSEWOOD (MACHAERIUM SCLEROXYLON)

ORIGIN: BOLIVIA

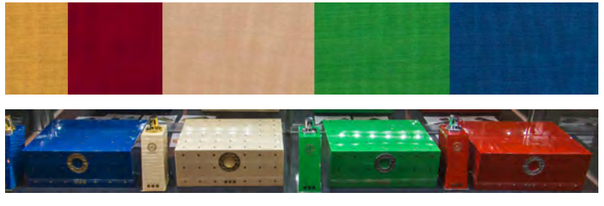

Exotic hardwood. A substitute rosewood of great beauty, red brown to deep purple brown, fine textured and beautifully marked, showing much of the character of the best rosewoods and superb for cabinet work.

ELM BURL

ORIGIN: WESTERN EUROPE

Heartwood is light to medium reddish brown. Paler sapwood is usually well defined. Elm burl veneer is occasionally available, and is among the most expensive veneers commercially available.

SYCAMORE (PLATANUS OCCIDENTALIS)

ORIGIN: NORTH AMERICA

Similar to maple, the wood of Sycamore trees is predominantly comprised of the sapwood, with some darker heartwood streaks also found in most boards. The sapwood is white to light tan, while the heartwood is a darker reddish brown. Sycamore also has very distinct ray flecks present on quartersawn surfaces—giving it a freckled appearance. We use sycamore natural colors and also adding black, blue, green, red or yellow and other colors.

MAGNUM OPUS HUMIDOR AND ASHYTRAY

WE PRESENT A UNIQUE, EXCLUSIVE SET OF HUMIDOR AND ASHTRAY

«Love Under the Shelter of Tobacco Leaf».

This set is a real pearl in the Zaven by G.P.Grant collection, unique, single author's creation that will never be repeated. This is real creation of art, with bronze or silver sculpture that amazes by its rare beauty and elegance.

The unique idea of the project, its sketch and execution is fully implemented by the author, a talented modern European painter and sculptor whose works are represented in many private collections and museums. Captured by enthusiasm of the G.P.Grant Company, the author being the admirer of good tobacco and cigars conceived and implemented that unique idea.

The central idea of the composition adorning the lid of the humidor is a symbolic silhouette of men and women, merged into the arms under cover of tobacco leaf. The refined style of the sculpture and the ambiguity of the images allow everyone to think through what the author wanted to say. These are unique moments, fine memories and love of life. Fine work distracts us from routine worries, helps to relax and think about something personal covering ourselves in smoke and aroma of excellent cigar.

A unique author's ashtray is in the set with each humidor. The ashtray is handmade and finished in bronze or silver, which is inserted into the wood base.

WOOD LINE

ORIGINAL EDITION

ORIGINAL EDITION

Sophisticated inlay of metal over wood is executed entirely by hand by the best masters of the company. The decor of each humidor from this line takes numerous hours of incrusting metal decoration, requiring tremendous concentration and meticulous attention to detail.

Many hours of filigree work by craftsmen and jewelers result in unique quality of products with inimitable combination of materials. The line represents true sophistication and luxury making the accessories the pieces of artwork for collectors.

HAND-FINISHING, PERSONALIZATION, TESTING AND QUALITY CONTROL

SWITZERLAND

Testing and quality control are carried out on the each step of the production and in each laboratory and workshop. The final stringent control of finished products is carried out in the laboratory in Switzerland, and only after that, the product is sent for the packaging. Extremely high standards guarantee exceptional quality and reliability.

HANDMADE JEWELRY PARTS

GERMANY, PFORZHEIM

All metal parts are handmade by jewelers using filigree gold-plated or rhodium-plated technology in Germany, Pforzheim is known as a Golden City, historically an important jewelry centre.

GOLD OR RHODIUM FINISH

WOOD COVERING

The quality of humidors also depends on the quality of the veneer pattern. Skillful selection of textures, shapes, and colors allows you to create unique ornaments and compositions of extremely beautiful products. The surface of each humidor is covered with high-quality lacquer in several layers. Best materials are used for handmade décor.
An elegant collection consists of accessories that have different surfaces in various types of wood – such as sycamore, walnut burl, bubinga, ebony and others.

INTERIOR CIGAR BOX SPANISH CEDAR –

one the world's most important timber species. Esteemed for its aromatic and attractive pink wood, which is resistant to rotting and insects. Has a distinct, lingering, cedar-like scent; this characteristic of the wood makes it a favorite for cigar boxes. Heartwood is reported to be extremely resistant to preservation treatments.

CIGAR BOX. ELIE BLEU

FRANCE, PARIS

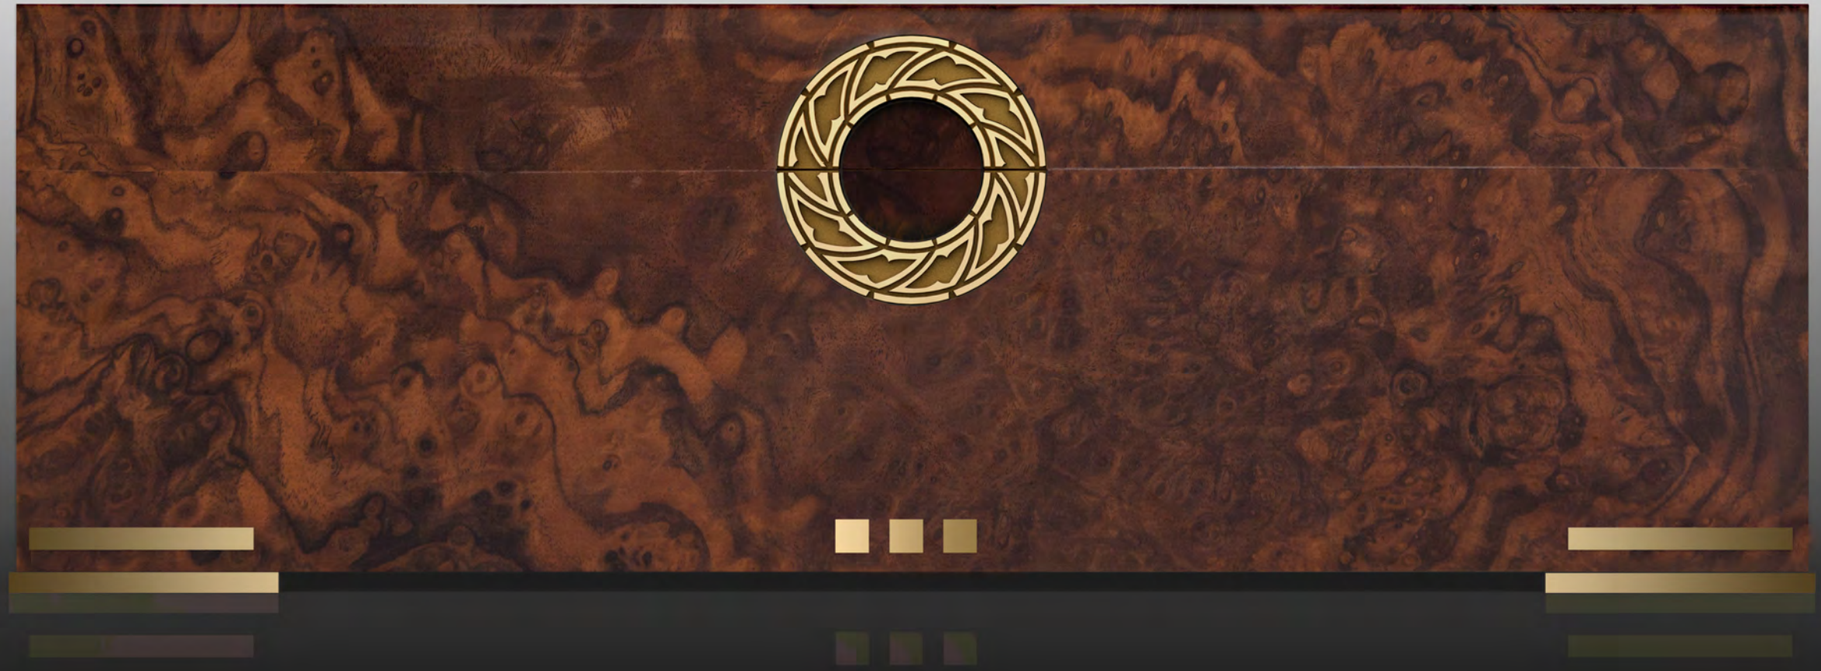

All humidors are entirely handmade from the highest quality materials. With the purpose of ensuring unparalleled the G.P.Grant closely cooperates with Elie Bleu, France, the absolute world leader and expert in the production of top level handmade humidors. Nowadays the Elie Bleu humidors are the best quality and the desirable ones in the world. Elie Bleu has all the rights to occupy the leading position in the production of high quality exclusive cigar boxes. This guarantees 100% safety of cigars for an unlimited time.

ZAVEN WALNUT BURL SET

ZAVEN COLLECTION

The filigree encrusted Seal, a large metal drawing over wood on the lid of the humidor is made entirely by hand by the best craftsmen of the company. A massive metal Seal with a letters Z lock inlaid on it is made by jewelers, using filigree gold-plated or rhodium-plated technology. This line is available in several versions using elite wood – sycamore, walnut burl, bubinga, macassar ebony and others. Lighters and ashtrays are available in this collection
