

DURAMICA®

BATHROOMS

MADE IN FRANCE

À la manière de la « haute couture », nous créons depuis 1975 des articles sur-mesure de robinetterie et de quincaillerie issus des savoir-faire français.

Pierres fines, nacre, cristal, marbre, porcelaine... Nous concevons nos collections à partir des possibilités qu'offre notre matériauuthèque, élaborée avec l'aide précieuse de quelques-unes des maisons les plus expertes en leurs domaines.

In typical "haute couture" fashion, our brand has been making bespoke faucets and hardware, drawing on France's finest craftsmanship since 1975.

Using fine stones, mother-of- pearl, crystal, marble, porcelain... We shape our collections around the range of possibilities afforded by our materials library, built up with the invaluable help of some of the foremost experts in their craft.

Les Maîtres Robinetiers de France sont reconnus « Entreprise du Patrimoine Vivant » par le gouvernement Français.

The "Maîtres Robinetiers de France" are labelled "Entreprise du Patrimoine Vivant" by the French Government.

In the process of working with natural stone, new stone products have been developed that allow to expand the possibilities of using stone. A line of Duramica composite stones was created – a thin layer of natural stone on a ceramic, metal or glass surface. Duramica products make it possible to embody the most complex designs and products for facades and interiors from stone.

Modern production line Duramica, located in Xiamen and is fully controlled by the Swiss specialists of the company. The decision to open production in Xiamen was made due to the presence of a huge amount of natural stone from around the world. All the stones presented in the Collections are available, close to the production. Products are fully manufactured in accordance with Swiss know-how. The final products fully comply with Swiss quality standards.

DURAMICA LINES:

Natural stone – All types of products from a natural stone for facades and interiors

DuraSkin – Natural stone on ceramic base

DuraSkin Light – Natural stone on thin ceramic base

Durastone – Natural stone on granite base

Durafoam – Natural stone on foam concrete base

Duramet – Natural stone on aluminium honeycomb base

Duramica Fiberglass – Natural stone on cellular fibreglass base

Glassonyx – Natural stone on backlit glass base

DURASKIN

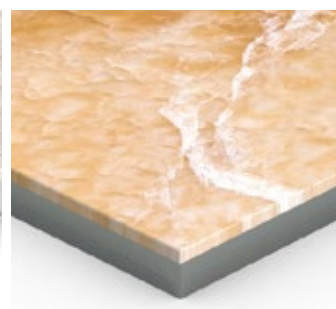

DURASKIN LIGHT

DURAMET

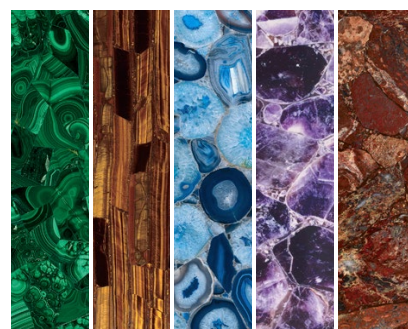

GLASSONYX

SEMI-PRECIOUS STONE

Semiprecious stone collection is a composite panel with a surface collected from precious stones and minerals: lapis lazuli, jasper, agate, malachite, tiger eye and other rare types of stone.

Optionally, you can add fossilized seashells and Ammonites – extinct millions of years ago, a subclass of cephalopods.

GLASSONYX®

Glassonyx is the composite stone consisting of an ultra thin layer of natural stone and backlit glass base. Stone collections: Glassonyx (onyx, agate, amethyst, jade, translucent marbles.)

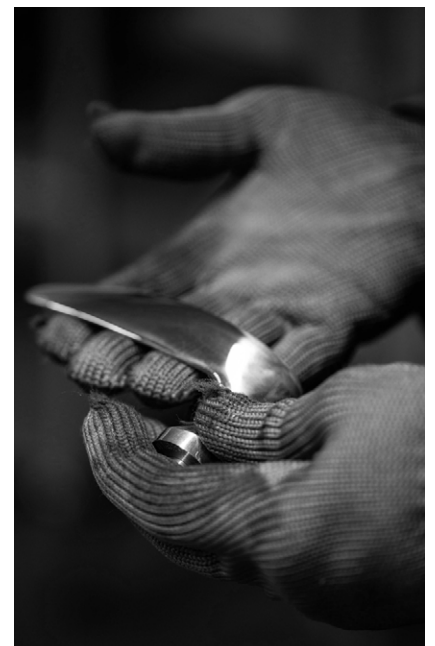

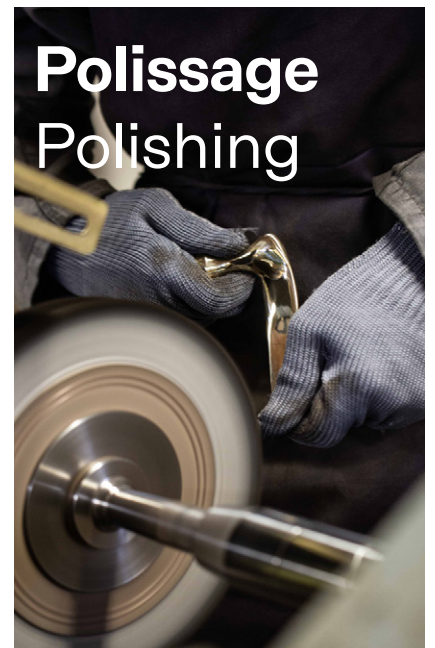

MATÉRIAUTHÈQUE

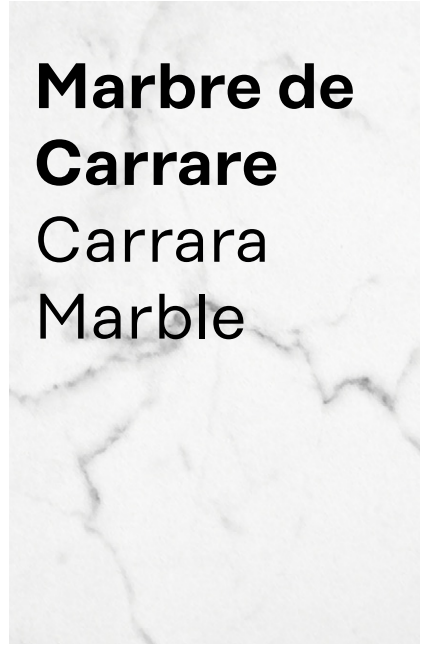

Forte de notre expertise et de la richesse de notre matériauthèque, nous imaginons des gammes de robinetteries, d'accessoires et de poignées de portes réalisées en collaboration avec des manufactures de renom.

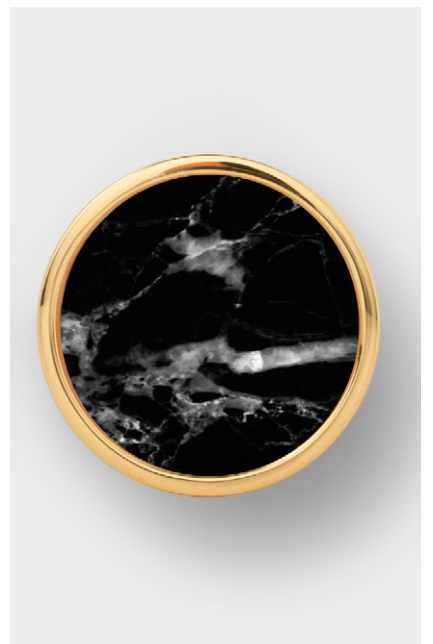

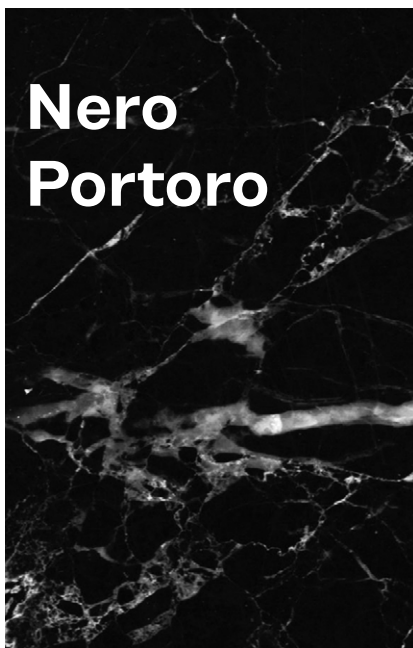

MATERIALS LIBRARY

Thanks to our expertise and the richness of our library of materials, we have created a wide array of fittings, accessories, and hardware in collaboration with renowned manufacturers.

Nous conseillons de valider le choix de finition à partir de nuanciers disponibles chez nos revendeurs, en particulier pour les finitions patinées.

We advise you to confirm your finish choice using the colour charts available through our resellers, especially for the patina finishes.

* Finitions non vernies pouvant se ternir, non garanties.

* Unlacquered finishes can tarnish, no guarantee.
